Product Designer with 16+ years of experience across e-commerce, logistics, and enterprise software. Currently at Lazada Singapore, driving RedMart Seller product roadmap and logistics integrations that reduced operational workload by 40-50%. Proven track record in API integration, project management, and AI-powered automation. Skilled in full-stack development (PHP, Java, Spring), cloud infrastructure (AWS), and cross-functional team leadership.

PROFESSIONAL EXPERIENCE

Product Designer

Lazada Singapore | Singapore Jul 2018 - Present

- Creating mockup, build dashboard performance monitoring and product documentation utilize AI with QoderWork and Alibaba AI app builder.
- Led the implementation of key RedMart Seller Center initiatives, including Seller Onboarding, Master Product, and Seller Centre.
- Defined and monitored product performance metrics and dashboards to track business health, identify improvement opportunities, and support data-driven product decisions.
- Gathered and analyzed business requirements from cross-functional stakeholders, translating them into scalable product solutions and technical implementation plans.

Project Manager

Cloud Tech Ventures Pte. Ltd. | Singapore Aug 2016 – Jul 2018

- Led end-to-end project delivery by managing scope, timeline, cost, and quality across multiple product and system initiatives.
- Coordinated cross-functional teams including vendors, developers, and designers while overseeing technical architecture, infrastructure planning, and system implementation.
- Gathered and translated business requirements into product specifications, user flows, and solution designs while monitoring development progress and delivery milestones.

Senior Mobile Developer

Vertical Software Asia Pte. Ltd. | Singapore Nov 2014 – Aug 2016

- Led end-to-end development of cross-platform mobile applications and backend API services, integrating features such as notifications, geolocation, NFC, and secure data encryption.
- Managed cloud infrastructure and deployment operations, including server configuration, database setup, firewall security, and DNS management on Amazon Web Services platforms.
